## **REL670 - Transmission line distance protection - ABB Group**

This manual is an effort to facilitate the user in testing the ABB RED670 relay. It is assumed that the user of this manual is already familiar with the PCM600 software and hence, it is not addressing the configuration procedures in detail. The software used for testing the relay is 'P600 Version2.3'.

ABB factory in India wins gold certification for sustainability and eco-efficiency. Embedding sustainable technologies lies at the heart of ABB's purpose. A very clear proof point of this is the company's factory in Nashik, India, which was recently recognized with a gold certification by the Indian Green Building Council (IGBC).

## **ABB Group. Leading digital technologies for industry**

A universal relay is a safety relay with various input options for various safety devices and risk levels. Internally, the safety relay is of the highest safety level (PL e according to EN ISO 13849-1). A machine supplier can therefore, with one single safety relay, select the input configuration that best suits their customers' safety
