to play.

## **Acroexch Document**

You aren't the only one who has a frequent recurrence of the AcroExch error when trying to insert a PDF into Word documents or opening an Excel document which have multiple objects in it. You may feel that odds are not in your favor when getting the same error message. This message states: The program used to create this object is AcroExch.

## **AcroExch error: How to download and install Acrobat Reader**

The original post was for "Reader" and "Reader" does not have any ability to convert any document to a PDF. Acrobat 9 and MS Office 2013 are compatible but Acrobat 9 is designed to run under Windows XP, Windows Vista, and Windows 7. So Acrobat 9 may not fully work for Windows 8.

## **How do I get AcroExch (Acrobat**

# File Type PDF Acroexch Document

## **Reader)**

AcroExch.PDDoc. The underlying PDF representation of a document. This is a creatable interface. There is a correspondence between a PDDoc object and an ASFile object (an opaque representation of an open file made available through an interface encapsulating Acrobat's access to file services), and the PDDoc object is the hidden object behind every AVDoc object.

## **AcroExch.PDDoc - Adobe Inc.**

AcroExch.App. The Acrobat application itself. This is a creatable interface. From the application layer, you can control the appearance of Acrobat, whether Acrobat appears, and the size of the application window. This object provides access to the menu bar and the toolbar, as well as the visual representation of a PDF file on the screen (through an AVDoc object).

What I've done is removing the old key

## File Type PDF Acroexch Document

(AcroExch.Document) leaving the AcroExch.Document.7 alone. I've also removed AcroExch, and AcroExch.pdfxml to be sure and somehow I was able to attach and open files from MS word. I wish I have read your issue before, but I've just found the problem yesterday and solve it today starting with your hints.

### **Solved: Word pdf object problem - Adobe Support Community ...**

Solution 1: DISM¶. Deployment Image Servicing and Management (DISM) is a way to enforce file type associations. While it remains difficult to prevent users from selecting alternative default applications, Microsoft addresses this problem by providing DISM as a way for admins to reinstate the defaults when a user logs off and on.
