Malaria Letters The Ross Laveran

Laveran was a parisien medical doctor, who won the 1907 Nobel Prize in Physiology and Medicine for his work demonstrating that protozoa were the causative agents of malaria. Ross was an Indian-born doctor who followed on from Laverans work, eventually showing that mosquitoes were responsible for the transmission of the malaria parasites.

malaria letters the ross laveran correspondence 1896 1908

Ross's analysis of the economics of malaria control also went largely unheeded. The message is still relevant and is still too little-heeded by politicians and health planners. Ross had lot of appreciation for Laveran, Koch and of course his mentor, Sir Patrick Manson. Koch's suggestions on immunity in malaria also impressed Ross.
