(PDF) Sense of Community: A Definition and Theory

Wilhelm Maximilian Wundt (/ v ō n t /; German: ; 16 August 1832 – 31 August 1920) was a German physiologist, philosopher, and professor, known today as one of the fathers of modern psychology. Wundt, who distinguished psychology as a science from philosophy and biology, was the first person ever to call himself a psychologist. He is widely regarded as the "father of experimental psychology".

Wilhelm Wundt - Wikipedia
