Scaling Networks Companion Guide

Our brains are incredibly adaptive. Every day we form memories, acquire new knowledge or refine existing skills. This stands in contrast to our current computers, which typically can only perform pre-programmed actions. Our own ability to adapt is the result of a process called synaptic plasticity, in which the strength of the connections between neurons can change.

Evolving interpretable plasticity for spiking networks | eLife

Use Let's Encrypt via the Docker Let's Encrypt nginx-proxy companion to automatically issue and use signed certificates. Create a directory to hold the certificates. cd mkdir certs Run the proxy, but this time declaring volumes so that the Let's Encrypt companion can populate them with certificates.
